

Convertible PJC

Shallow well ejector included + deep well

The PJC injection centrifugal pump with convertible ejector is built for either shallow or deep well applications. It is ideal for a summer cottage or a country house.

The diffuser (Polycarbonate) and the impeller (Noryl) precisely molded, assure optimum efficiency. The self-lubricated mechanical seal is made of carbon and ceramic for a longer life span.

The pump housing and the seal plate are made of grey close-grained cast iron. These parts are specially treated with adapted paint to give a higher resistance to corrosion.

CHARACTERISTICS

- Single-phase motor, **square flange**, 3450 RPM, 115/230 Volts, automatic thermal protection and stainless steel shaft
- Rubber seal gasket
- Pressure switch set at 30 to 50 lbs/in²
- 0 - 100 PSI pressure gauge
- Shallow well ejector included
- Deep well venturi included
- Convertible ejector for deep well application

All pumps are tested at our factory
